DETAILED ACTION

Claim Objections

Claim 1 is objected to because of the following informalities: In claim 1, "Aluminum" should be --aluminum-- and "NYLON" should be --nylon--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter that the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. This can render a claim indefinite by raising a question or doubt as to whether the feature introduced is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. In the present instance, claim 1 recites the broad recitation of "metallic" and "plastic", respectively, and the claim also recites "aluminum" and "nylon" which is the narrower statement of the range/limitation. Hence, it is not clear if the claim intends for the member to be metallic or aluminum, or plastic or nylon. Clarification and correction are required.

Allowable Subject Matter

Art Unit: 3635

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claim 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
